The 158th Anniversary of Our First President's Birth.

Celebrations in New York, Brooklyn and Jersay.

Parades, Outdoor Athletics and Indoor Entertainments,

No more beautiful weather on Washington's Birthday was ever recorded in this city. The mid-Winter holiday comes with the bluest of skies and air which is a delight to the lungs of all.

In accordance with time-honored cus-tom, the celebration of Washington's Birthday was begun in Gotham this morning by the hoisting of the Stars and

The voice is the voice of the Senate, but the hand is the hand of Platt.

Mr. Platt returned from Washington yesterday. 'I am certain we shall get the Fair," he said to a reporter. 'When the voting begins St. Louis will get a few votes, which will come on the second or third ballot to New York. In my opinion it won't be very long before Chicago will drop out of the light."

'Then you feel certain that New York will have the World's Fair in '92?'

Mr. Platt shook his head.

'I didn't say that," he said. 'What I mean is that if there is a World's Fair it will be in this city. I have no doubt of there being a Fair either, but I have considerable doubt of there being a Fair in 1892.

ceived from a canal-boat captain:

To the Editor of The Essency World:

I should like to call your attention to the fact that in the lighterage department of the New York Central and Hudson River Railroad our pay for the month of December, dee Jan. 7, was not paid until Jan. 14. Men with families were compalied to borrow money to bridge them over until such time as the Company saw fit to pay us. We were not even given an excuse for the delay, but were each day put off till the morrow. Six years ago they paid the barge captains twice a month, but now once a month is pay-day, and not regularly at that.

Canal-boats that were formerly hired at \$75 per month have been cut to \$50 per month and if our boats are damaged we are told that we should be giad to have their work and not ask them to fix their boat, as was formerly done. Is there no help for us? Is the os pretty good bartain for the New York Central Railroad to have the use of a \$2,000 boat and a captain to run it, all for the small sum of \$40 per month, and then make the captain wait the convenience of arrogant officials for the pay?

That weekly payments are a blessing to all wage-earners is confirmed by the following letter from a Connecticut working man:
